# BULLSEYE™

WET & DRY HEPA VAC

1-877-532-5323  
www.esca-tech.com

Bullseye Vacs are high capacity, wet and dry industrial vacuum cleaners designed to maximize your cleaning performance and minimize contact with collected dust. Features include a large settling chamber for extended filter life and 3 stage filtration with fast 1 wrench maintenance. Bullseye Vacs provide simultaneous wet and dry pickup with automatic high liquid shutoff. The HEPA Filter combined with the sanitary dust handling system make the ESCA Bullseye HEPA Vac the choice for high value and hazardous materials.
