

LEAD CLEAN UP FOR FIRING RANGES & RELOADING

D-Lead® Hand Soap 4222ES

use with water at wash sinks around the firing range and after reloading

D-Lead® Deluxe Whole Body Wash & Shampoo 4224ES

use with water to clean hands and in the shower after a day of shooting or working on the range

D-Lead® Dry or Wet Skin Cleaner 4460ES

use in the field or at outdoor firing ranges where water is not available. Also removes black powder and black powder residue from the skin

D-Lead® Abrasive Soap 4229ES

use with water. The fine round abrasive provides extra cleaning strength and removes reloading grime

D-Wipe® Towels

both skin and surface cleaner. Use to clean hands, range and reloading equipment after shooting or reloading. Singles and 40 count canister readily fit in the range bag. Install 150 count canisters with optional wall brackets on the firing line and at the reloading bench

D-Lead® Final Clean 2201ES

spray and wipe surface cleaner for use on reloading equipment and around the range. Available as both a concentrate and in ready to use spray bottles

D-Lead® All Purpose Cleaner 3102ES

heavy duty concentrated surface cleaner for cleaning the entire firing range and to regenerate D-Step™ Mats

D-Lead® Lead Test Kit

detects lead on the skin, equipment and other surfaces. A useful tool to check the effectiveness of lead clean up

D-Step™ Mats

place outside firing range doors to reduce the amount of lead being tracked off the firing line
