

.308 Win. SWISS P Subsonic

7.62 mm x 51

- Compatible with all 7.62 mm x 51 bolt action weapons
- For quiet firing of suppressed weapons
- Best accuracy with 8 or 10 inch twisted barrels

Application:

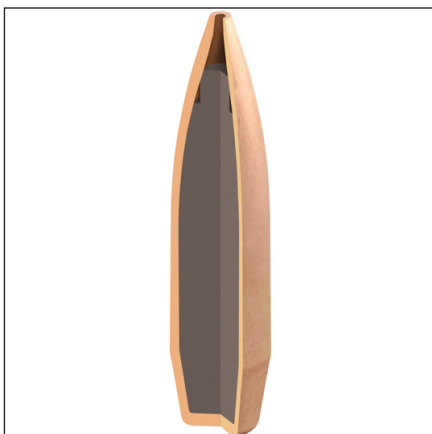

SWISS P quality in a subsonic cartridge. This ammunition provides for quiet firing of suppressed weapons. A heavy HPBT effective for precise shots to 100 m. Due to the low velocity and shorter range of the

subsonic round, the trajectory of subsonic ammunition does not duplicate the long range ballistics of the other SWISS P ammunition.

Cartridge Data

weight:	27.2 g
case material:	CuZn - alloy
primer:	large rifle
propellant:	double base
projectile:	HPBT
ballistic coefficient C1:	0.555 (ICAO)
projectile weight:	200 grs / 12,9 g
jacket material:	CuZn - alloy
core material:	PbSb - alloy
dimensions:	in accordance with CIP
marking:	blue tipped primer

Technical Data

temperature range:	between -54°C and +52°C
muzzle velocity:	320 m/s
mean chamber pressure:	max. 1600 bar
accuracy 100 m:	100% radius 17 mm, 10 rounds
NSN:	1305-22-266-0526

Packaging and Marking:	In accordance with customers' requirements
	Errors and technical changes excepted
