

.338 Lapua Mag. SWISS P Styx Action

8.6 mm x 70

- Unique combination of excellent accuracy with maximum stopping power
- Compatible with all .338 mm bolt action weapons

Application:

The Styx Action cartridge is loaded with a high impact, high performance, maximum expansion projectile for extreme deformation in the target. This projectile causes

immediate and final disabling to the target with minimal danger to other persons in the target area. Styx Action is the cartridge for the single shot which must be the final shot.

Cartridge Data

weight:	44 g
case material:	CuZn - alloy
primer:	large rifle magnum
propellant:	single base
projectile:	JHPBT
ballistic coefficient C1:	0,414 (ICAO)
projectile weight:	247 grs / 16.0 g
jacket material:	CuZn - alloy
core material:	PbSb - alloy
dimension:	in accordance with CIP

Technical Data

temperature range:	between -54°C and +52 °C
muzzle velocity:	min. 870 m/s (test barrel 650 mm)
mean chamber pressure:	max. 4200 bar (P _T)
accuracy 100 m:	100% radius 11 mm, 10 rounds
accuracy 300 m:	100% radius 35 mm, 10 rounds
accuracy 600 m:	100% radius 70 mm, 10 rounds

Packaging and Marking:	In accordance with customers' requirements
	Errors and technical changes excepted
