

CAPSOLES™ PODIATRIC CLOGS

Capsoles™ Podiatric Clogs are a lightweight, slip on, “at home” shoe for pre-sport, post-sport or for anyone with arthritis, diabetes, osteoporosis or other medical condition requiring that stable, supportive (protective) footwear be worn at all times.

Capsoles™ feature:

- Single injection molded unitized design,
- A protective toe box with generous depth and width,
- A stable, semi rigid midsole with a natural forefoot rocker profile,
- A shock absorbing, contoured, removable footbed that can be replaced with a custom functional or accommodative orthoses, and
- A special cavity designed to accommodate a graphite plate. (Used for managing stress fractures and other forefoot pathologies - sold separately)
- A hook & loop adjustable back strap for easy fitting

Capsoles™ Podiatric Clogs were developed by doctors Ian Yu (DPM, MSc, FACFAS, DABPS) and Heather Bui (DPM.), for patients who require orthotics, at home and pre- and post-athletic activity. Part proceeds from the sale of Capsoles is donated to a variety of charities.

Capsoles are available in 6 colours, 3 width fittings in 8 unisex sizes. They can be ordered in single pairs (via foot tracing or “Ritz Stick” measurement) or an 8 pair starter package.
